

Potential Air Quality Control Commission Rule Revisions Related to Colorado's 8-hour Ozone "Bump-up" SIP

Stakeholder Meeting Agenda

Thursday, June 23, 2016

10:00 am-12:00 pm (CDPHE's Sabin-Cleere Room)

Space is limited; pre-registration is recommended.

Pre-register at: <http://goo.gl/forms/IQNva7vHlVa21kFG2>

On March 17th, 2016, the Air Pollution Control Division (Division) held the first public stakeholder meeting related the Denver Metro/North Front Range 8-Hour Ozone Nonattainment Area being "bumped up" from a marginal to moderate classification. At that meeting, Division staff discussed proposed revisions to the Air Quality Control Commission's (Commission's) Regulations 3, 7, and 11 as well as the Commission's Air Quality Standards, Designations and Emission Budgets. Moderate bump-up State Implementation Plan (SIP) requirements necessitate that the Division adopt more substantial revisions to Regulation 7 than were previously discussed at the March 17th meeting. At this meeting, Division staff will discuss these additional proposed revisions to Regulation 7.

PURPOSE

1. Explain the evolution of necessary revisions to Regulation 7 and their relationship to the Regional Air Quality Council's 8-Hour Ozone Control Strategy Evaluation Effort
2. Discuss proposed revisions to Regulation Number 7
3. Solicit feedback

DESIRED OUTCOMES

By 12:00 today,

- A. Understand what revisions to Regulation 7 are being considered for inclusion in Colorado's 8-Hour Ozone "Bump- up" SIP.
- B. Understand the associated timeline for adopting these rule revisions.
- C. Understand how to engage in the public process.

AGENDA

1. Introductory Remarks (10 min)
2. Presentation and Q&A on Potential Revisions to Regulation 7 (90 min)
 - a. Bump-Up SIP Revisions
 - b. SIP Fix Revisions
 - c. Reasonably Available Control Technology (RACT) Revisions
3. Discussion of Other Options (15 min)
4. Meeting Wrap-Up and Next Steps (5 min)
